MILKING PARLOR PROCEDURES

Milking facilities at Clark County Fair are Grade A and state inspected.

Milk will be checked for antibiotics before leaving the premises.

The parlor is maintained during the CCF to provide a safe, convenient and orderly solution to the milking requirements, and to afford the fair visitors an opportunity to see how milk is produced.

Parlor times are set by the parlor manager, please work with the manager to set regular and bagging times. Typical times of the Milking Parlor are 5:00-8 mornings and nights. Please assist us in this endeavor by your full cooperation with milking schedules, and by presenting your animals in such a manner as to produce the best possible public appearance. Only experienced and enrolled 4-H members exhibiting a milk cow are allowed in the milking parlor. Milk poured into any drain is strictly prohibited. Contact Parlor Manager or Superintendent for proper disposal procedures.

Per Darigold an RBST form must be filled out by each exhibitor milking a cow. Fair will also sign a form. Must be filled out before the start of the fair or the exhibitors first milking, to ensure the proper documentation is completed.

Please note:

CCF will furnish dairy feed for use in the Milking Parlor.

Please use it fairly and without waste. It is your responsibility to sanitize your utensils before use. Facilities for this process are provided. All milking cows receiving medication must be identified with indicator leg bands. Animals that are treated must come in last of your herd to minimize disruption and to help prevent any errors of the milk going into the bulk tank.
